Budget Review/Narrative Draft

General Fund

A review of the General Fund budget items was given by Manager Dood while reviewing the budget narrative. Any item in parenthesis is a debt.

The Council members wage/pay per meeting was mentioned. Nothing will change at this time. This should be the last year that our expenditures are higher than revenue in the General Fund due to the Trail Project around the lake not hitting completion.

The police department expense has decreased due to no third full-time officer. Two computers were paid for out of this budget year instead of the next budget year.

The Building and Grounds line item has the expense for the Trail project included.

The Hanger project at the Airport has not reached completion so the extra expense is our portion of the project.

Our expense for the General fund this year is approximately \$160,000.

Street Funds

We are partnering with the road commission again this year to do some crack sealing.

Minimal tree work needs to be done and we will continue to work on sidewalks this coming year. We will move 50% of Act 51 money from Major Street funds to Local Street Funds again this year.

DDA

This fund is sitting good. The DDA revenue has increased again this year due to property being uncapped.

Sewer and Water Fund

These departments continue to improve with the slight increase of rates every year. We will continue to do smaller projects that are in the CIP.

CIP

Manager Dood presented the Capital Improvement Plan. This document breaks down each department and lays out a cost associated with projects for a span of 6 years.
